HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who suffer from acid stomach troubles possess stomachs that are healthy and normal. The real trouble, which causes all the pain and difficulty, is due to the stomach being overworked by food fermentation. Acid irritates the delicate lining of the stomach, and the fermentation causes wind which distends the stomach abnormally, causing that full and bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking a little warm or cold water immediately after eating, a teaspoonful of bicarbonate of soda, which is doubtless the best and only really effective antacid and food corrective known. Acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy normal manner. Be sure to ask your chemist for the bicarbonate of soda. I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.—Advertisement.

How to Keep Your Face Free From Ugly Hairs

(Modes of Today.)

A small original package of powdered talcum is a necessary toilet requisite for with it the skin can be kept free from hair or fuzz. A thick paste is made with some of the powder and water, and spread on the hairy surface; then in about two minutes it is rubbed off and with it comes every trace of hair. Washing the skin will remove the rest of the talcum. While this is a simple, effective method and quite harmless, you should be careful to test first before using. Advertisement.

Parties

Mr. and Mrs. R. H. Stevens

Mr. and Mrs. R. H. Stevens, of 1111 Montana street, very delightfully entertained a number of their friends at their home Tuesday evening with an old-fashioned Kentucky celebration of Mr. Stevens's birthday anniversary. The guests were received in Lincoln punch, made in an oak bucket. Supper was served on a table covered with an old-fashioned red flowered tablecloth with dishes of the old design and knives and forks with wooden handles. Tallow candles, mounted on brass holders, furnished the lights. A bid of welcome in Dickens's "prose" was placed by each plate, which was delivered by the guests.

Charles Detmold delivered a bid of wit as the opening, which was pleasing and appropriate. W. J. Harris added to the pleasure of the evening and recited some good humored jokes of his boyhood days. After supper the guests retired to the drawing room, where music and games were enjoyed until a late hour. The affair was intended as a surprise for Mr. Stevens, but in some way he learned of the plans.

Mrs. B. P. Hammett will entertain all the children whose relatives are members of the P. O. Elks with a party at the Elks club house Saturday night, May 30. Mrs. Hammett has made it a custom to give these delightful parties every year, and they are most eagerly anticipated by the children. The little guests will be received in the hall by their hosts, Mrs. Hammett, and her Blue Bird club members, who are Nancy Williams, Margaret Neff, Mary Happer, Lydia Happer and Louise Beach. At 7:30 o'clock music, pictures will be shown on one of the galleries of the club house, and later in the evening the youngsters will be treated to refreshments of ice cream, cake, candy and other things that delight childish hearts, and the remainder of the evening will be spent in dancing. Arriving guests will be her daughter and son, Mr. and Mrs. R. F. Farrar, and her son, Paul Hammett.

To Regain a Healthy, Girlish Complexion

If you would have a clear, fresh, girlish complexion, one ounce of ordinary mercurized wax will add you in this direction more than any other cosmetic. It produces a natural beauty. This wax, procurable at any drugstore, completely absorbs a bad complexion, revealing the healthy young skin underneath. Its work is done gradually, day by day, that no inconvenience. The wax is applied at night, like cold cream, and removed in the morning with soap and water.

Another valuable rejuvenating treatment for wrinkles is to bath your face in a solution of powdered salicylic acid, 1 oz. dissolved in 1/2 pt. witch hazel. This has a remarkable action in smoothing out the lines and "firming up" the loose tissue.—Advertisement.

Mrs. A. W. Young will leave the first of the week for San Antonio, where she will spend a part of the summer.
